

The diagram shows the layout of the upper deck of a bus, featuring 77 numbered seats. The seats are arranged in two main sections: a left section with 35 seats (numbered 21-58) and a right section with 42 seats (numbered 23-77). Each seat is represented by a rectangular box with a smaller box below it, likely for a nameplate. The seats are arranged in rows, with the left section having 10 rows of two seats each, and the right section having 10 rows of two seats each, plus a final row at the bottom with five seats. A diagram of a seat is shown between the two sections, with a large blue arrow pointing left and a smaller blue arrow pointing right, indicating the direction of travel.
